

Facts and Figures 2022

Company Profile

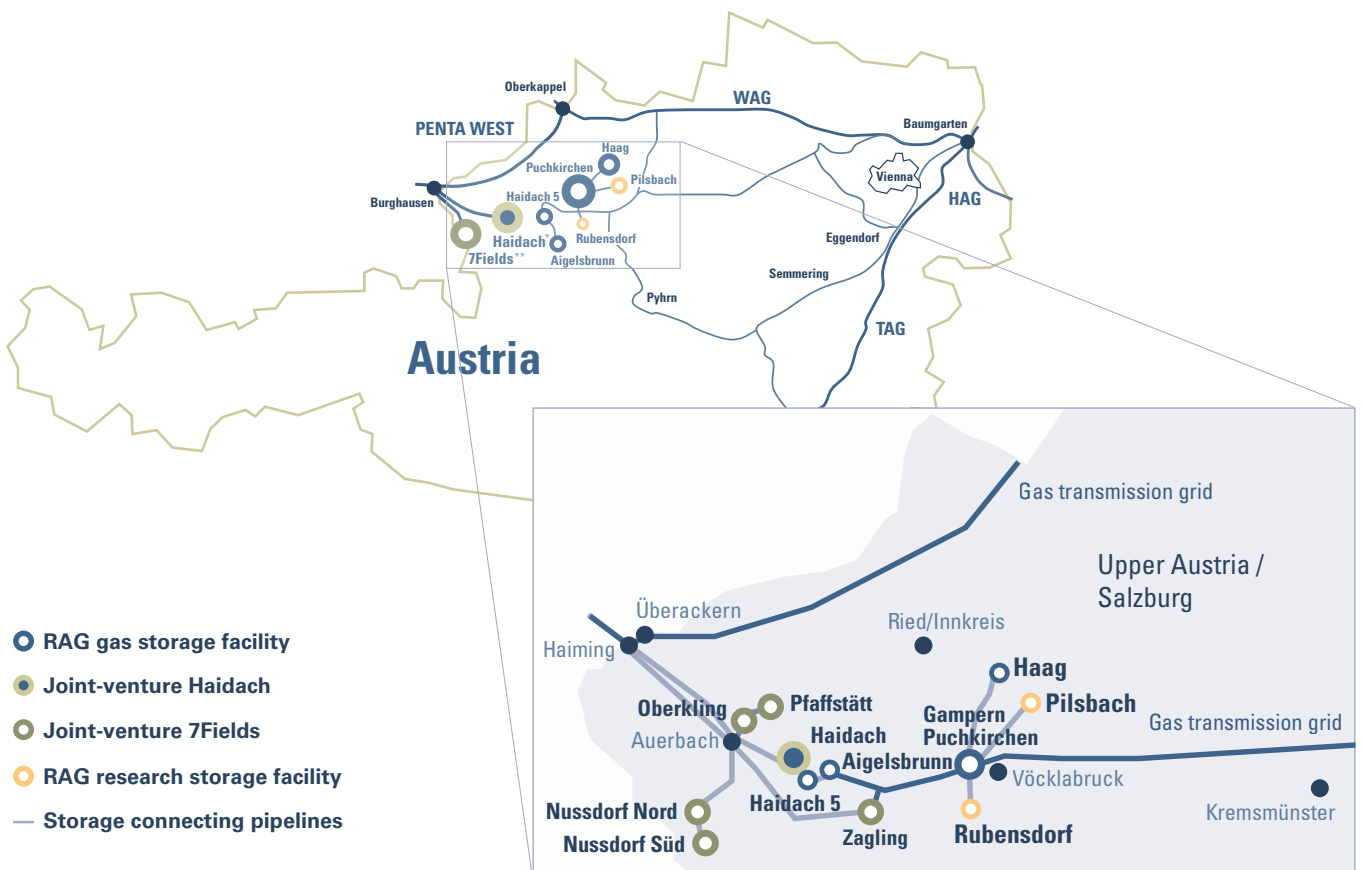

RAG Austria AG is Austria's largest gas storage operator – and hence energy storage provider – and one of Europe's leading storage facility operators. As a partner of renewable energies, the company develops innovative and forward-looking energy technologies around „green gas“

RAG's goal is to provide its customers with safe, efficient, environmentally friendly and affordable energy and gas storage services – sustainably and responsibly. This enables RAG Austria AG to play an indispensable role in the sustainable stewardship of Austria and Central Europe's raw material and energy supplies.

Locations in Austria

Headquartered in Vienna, the company's sites are primarily located in Upper Austria and Salzburg, where it is developing and operating five of its own storage facilities and a further six under joint ventures even as the research facilities in Pilsbach and Rubensdorf (both

Upper Austria) with a total storage capacity of 6.3 billion cubic meters. RAG thus lives „sustainable energy mining“ and decisively strengthens the security of supply of Austria and Central Europe.
